**Service done right.
And done by pros.**

A lot of places say they can fix your GM car or truck. But Bill Kay Chevrolet does the job with factory-trained expertise and Genuine GM parts. It's a combination that's hard to beat. For quality and peace of mind, don't settle for less.

**REMEMBER
MR. GOODWRENCH!!**

HERE IS WHY WE DO IT

Keeping up to date with the recommended scheduled maintenance helps ensure the safety, dependability and reliability of your vehicle. This menu covers recommended services from General Motors and Bill Kay Chevrolet. Driving habits, road conditions, weather and timely maintenance may change these recommendations slightly. Safety, dependability, and the reliability of your vehicle's performance are our main focus. Additional services may be recommended periodically based upon your vehicle's use or condition at the time of inspection.

Save Your Hard Earned Dollars And The Environmental Impact By Utilizing GM's Oil Light Monitoring System On Your 2004 & Newer Model!

MI - Maintenance Schedule

- Change engine oil and filter. Reset oil life system. (See "Engine Oil" *An Emission Control Service*)
- Visually check for any leaks or damage.
- Inspect engine air cleaner filter or change indicator. If necessary, replace filter.
- Rotate and inspect tires. Check inflation pressures and wear.
- Inspect brake system, including brake lines, hoses, pads, calipers, wheel cylinders, rotors, drums, hubs and bearings.
- Check engine coolant and windshield washer fluid and add fluids as needed.
- Trucks: Lubricate front suspension, ball joints, steering linkage, and parking brake cable.
- Trucks with Allison Transmission only: Replace external control - main filter, if necessary.
- Perform any additional services. See "Additional Required Services" in Owner's Manual.

MII - Maintenance Schedule

- Change engine oil and filter. Reset oil life system. (See "Engine Oil" *An Emission Control Service*)
- Visually check for any leaks or damage.
- Inspect engine air cleaner filter or change indicator. If necessary, replace filter.
- Rotate and inspect tires. Check inflation pressures and wear.
- Inspect brake system, including brake lines, hoses, pads, calipers, wheel cylinders, rotors, drums, hubs and bearings.
- Check engine coolant and windshield washer fluid and add fluids as needed.
- Clean outside of radiator and condenser, pressure-check cooling system and cap.
- Inspect radiator and heater hoses for cracks, swelling, or deterioration.
- Lubricate suspension, steering linkage, and transaxle shift linkage.
- Inspect wiper blades for wear or cracking, replace if necessary.
- Inspect safety belts, buckles, latch plates, retractors, anchorages, and safety belt reminder light for damage or loose parts.
- Lubricate key lock cylinders, body door hinges, hood, door, and trunk hinges.
- Inspect throttle linkage and ignition wires.
- Inspect steering system and suspension for damage, loose or missing parts.
- Inspect power steering lines and hoses for leaks or damage.
- Inspect passenger compartment air filter and replace if necessary (if applicable).
- Inspect brakes-transaxle shift interlock for correct operation.
- Inspect fuel system for damage or leaks.
- Inspect exhaust system for loose or damaged components.
- Trucks: Check transmission fluid level; add fluid if necessary.
- Trucks without a filter restriction indicator: replace engine air cleaning filter.
- Perform any additional services. See "Additional Required Services" in Owner's Manual.
